FATBIKE PASSCODE BATTERY LOCK

TRACKEND FATBIKE PASSCODE BATTERY LOCK

Secure. Smart. Seamlessly Integrated.

The **Trackend Fatbike Passcode Battery Lock** is designed to provide enhanced security and convenience for your e-bike battery. Say goodbye to traditional keys - this smart locking system uses a digital passcode to keep your battery safe and accessible only to you.

Key Features:

Digital Passcode Protection

Unlock your battery with a custom 4-digit code - no keys needed.

Integrated Design

Sleek and seamlessly built into the fatbike frame for a clean, modern look.

Anti-Theft Security

Prevents unauthorized removal of the battery, adding an extra layer of protection on the go or when parked.

Water & Dust Resistant

Built to endure outdoor use with durable, weatherproof construction (IP-rated).

Battery-Saving Mode

Lock automatically enters sleep mode when inactive to conserve power.

User-Friendly Operation

Intuitive setup and easy code reset function for daily convenience.

Ideal for urban commuters and outdoor riders who want smarter battery protection, the **Trackend Passcode Lock** is your reliable companion in both style and safety.

OUXI FATBIKE PEDAL ASSIST SENSOR

OUXI FATBIKE PEDAL ASSIST SENSOR

This is a **replacement pedal sensor (rotation sensor)** for the **OUXI V8** electric fat bike. It is also compatible with the **OUXI H9** and **OUXI V8 2.0** models.

Note: This sensor comes with a **long cable connection** and is **not compatible** with newer models that use the **yellow waterproof plug & play connectors**.

Key Features:

Suitable for OUXI V8, V8 2.0, and H9 models

Standard long cable connection (non-waterproof version)

Ensures accurate pedal assist signal to the controller

Easy to install and replace

Installation Instructions:

Remove the **left crank arm** to access the pedal sensor.

Follow the sensor cable to the **controller unit** and unplug it.

Replace with the new sensor and reconnect securely.

Check that the **display settings** are correctly configured to recognize the new sensor.

OUXI FATBIKE M5 DISPLAY

OUXI FATBIKE M5 DISPLAY

Enhance your riding experience with the Ouxi M5 Fatbike Display. The Ouxi M5 Display offers an intuitive interface that allows you to easily access various cycling data during your ride. Its robust construction and weather resistance ensure the Ouxi M5 can withstand a knock or two, perfect for long rides in all weather conditions.

Ouxi M5 Display Features:

- 100% original and speed limit not exceeding 25 km/h (15.5 mph).
- Compatible with original Ouxi models (provided they are compatible; if you're unsure, please contact us).
- Clear LCD screen with backlight
- Displays speed, battery level, distance, and more.
- Multiple riding modes available.
- Suitable for various electric bike models.
- Easy installation and operation.
